

I am a listener of K-Love. It is very important to me because I listen to it everyday, and it helps me in my faith. It gives me a chance to hear dedicated Christian radio that I can relate to. I believe that if K-Love were replaced by an LPFM broadcaster, my community would lose much of the hope and spirit that K-Love brings to everyone's lives. It would take away from allowing people a place to turn when they need help. I also believe that K-Love is operating in the public interest because of the quality of the programming and the additional services they provide besides music! I just love the station!!
